Hungarian Ammunition Depot at HAJDUSAMSON (near DEBRECEN)

1. This depot was constructed during 1952-53, and up to the time of the revolution had undergone no modifications. It is situated about 20 km NE of DEBRECEN about 1,000 metres to the East of the road from DEBRECEN to HAJDUSAMSON
2. The lay-out is similar to that at the depot at PUSZTAVACS, with the same type of building. The ammunition storehouses are located in copses 30 metres wide. A railway-siding with Decaville gauge was to have been constructed but is still not laid down; it was to branch off the railway line NW of DEBRECEN.
3. The depot comprises 30 storehouses, linked by a macadam road system.
